

Text to all seniority personnel:

Per the membership vote, automatic records have ended. Please call the information tape for details.

Information tape announcement:

Automatic records will officially end, per the membership vote, beginning Tuesday, January 31st for all Wednesday, February 1st work. Moving forward, you MUST queue up or call the availability tape to make yourself available for work. If you are not queued up or marked up, you will NOT be called for work or allowed to AO; however, you will still be able to call in during your category to take a job. If you call in without being marked or queued up the dispatcher will call you back at the end of your category. If multiple personnel call in from the same category, the dispatcher will call back in the order of who called in first. If you accept a job outside of your category, you will pick your paperwork/job based on the category you called in on. (Category rules will apply. Example: flip cards, roll dice, or timestamp) The 10 min till rule applies.
