Dear President Deloach:

The District office continues to receive complaints from Local 1475 workers that the Deck and Dock MOU has been changed without a vote of the membership. To clarify any confusion regarding my letter of July 17, 2024, along with the agreement with Georgia Stevedores Association, an all-day vote of the membership is required for all modifications of the MOU. Please ensure any past, present, and future changes to the MOU are ratified by your membership. Thank you for your cooperation.

Fraternally,

Alan A. Robb
President
